

WIRE SECURITY CARTS

- Lakeside security units protect valuable cargo from loss or theft.
- Wire 2.5" x 2.5" mesh construction provides easy visibility of contents.
- Enclosure panels attach easily to 63"-64" unit posts.
- Security cart comes with 2 shelves (top and bottom). Additional shelves are optional.
- Security cart units include 4 ea. 5" poly swivel casters. Front double doors have 4 ea. pin hinges (with threading) on each outer edge which drop into metal loops in edge of side panels. Back consists of a top panel and bottom panel, split horizontally in middle.

- Each door opens 270 degrees so it can be secured along the sides of the unit if desired. Left edge of right door has a channel reinforced doorframe with padlock hasp which can be locked using a padlock (left). Padlock not included. Right edge of left door has 4 wire door jams which go behind door frame when door is closed.

- Optional dolly bases available.
- Ships unassembled with hardware kit consisting of 16 nuts
